PROFESSIONAL SUMMARY

Python Developer fresher with strong hands-on experience in **Python, OOPs, SQL, Django, and Django REST Framework**. Skilled in building **RESTful APIs**, implementing **authentication and authorization**, performing **CRUD operations**, and integrating **MySQL databases** using Django ORM. Passionate about backend development and eager to contribute to real-world Python applications while continuously improving technical skills.

TECHNICAL SKILLS

Programming: Python, SQL, OOPs

Backend: Django, Django REST Framework (DRF), REST APIs, Authentication & Authorization

Frontend (Basic): HTML, CSS, Bootstrap, JavaScript

Database: MySQL, SQLite

Tools: Git, GitHub, VS Code, PyCharm, Jupyter Notebook

WORK EXPERIENCE AND CERTIFICATIONS

Python Full Stack Development Trainee - (Orbit Cybermatics Pvt Ltd). 📄 | Dec 2024 - Aug 2025

- Gained hands-on experience with front-end (HTML, CSS, JavaScript) and back-end development (Python, Django), and database management (MySQL).
- Developed backend modules using Python and Django Built RESTful APIs for CRUD operations using Django REST Framework.
- Implemented user authentication and authorization Integrated MySQL database using Django ORM

Coding And Development Virtual Experience - (Deloitte). 📄 |

Sep - 2025

- Completed the Deloitte Virtual Experience Program in Technology and Coding with a globally recognized certificate from Deloitte.
- Learned development best practices and gained insight into professional technology projects at one of the world's leading consulting firms.

PROJECTS

Image Uploader Web Application — Django 📄

- Developed a Django-based backend for image upload, storage, and retrieval using ORM models.
- Designed a responsive frontend using HTML, CSS, and Bootstrap.
- Implemented form validation and secure media handling.

Student Management System Application — Python 📄

- Developed a Python-based CLI Student Management System using lists and dictionaries.
- Implemented Add, View, Search, Update, and Delete (CRUD) operations with menu-driven interaction.
- Enhanced usability with clear input prompts and structured output, demonstrating strong Python fundamentals.

Password Strength And Checker — Python 📄

- Developed a Python-based password strength checker using regular expressions and string methods.
- Validated password rules including length, digits, uppercase, lowercase, and special characters.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya (MP)

2021 – 2025

B.Tech - Computer Science and Engineering - CGPA - 7.7

Bhopal, Madhya Pradesh

EXTRACURRICULAR ACTIVITIES

- Active cricket player, developing teamwork, leadership, and discipline through regular competitive matches.
- Consistently engage in self-learning and coding practice to strengthen problem-solving and logical thinking skills.
